A word from the board:

Hey folks,

Starting in the last campaign and very firmly in this one, a lot of work has been put in by the writing team to move the associations of Solaron in a new direction. To be firmly about Order in opposition to Chaos, and move away from being a god of Law with all of its modern associations. Most players have embraced this. Some, however, are still insisting on treating as and calling Solaron "the cop god". Tongue and cheek though it may be, the current political climate is yet again displaying why we made the change in the first place. So now I'm making an out of game instruction. Please cut it out and respect the work of the team and community.
